INDEX TO VOLUME IV

1969

Adler, Michael, "On the Risk-Return Trade-Off in the Valuation of Assets," December, p. 493.

Archer, Stephen H., and Hans G. Daellenbach, "The Optimal Bank Liquidity: A Multi-Period Stochastic Model," September, p. 329.

Bernhard, Richard H., "Mathematical Programming Models for Capital Budgeting--A Survey, Generalization, and Critique," June, p. 111.

Borch, Karl, "Equilibrium, Optimum and Prejudices in Capital Markets," March, p. 1.

Bower, Richard S., and Donald F. Wippern, "Risk-Return Measurement in Portfolio Selection and Performance Appraisal Models: Progress Report," December, p. 417.

Breen, William, "An Exploratory Model of Financial Markets," September, p. 233.

Daellenbach, Hans G., and Stephen H. Archer, "The Optimal Bank Liquidity: A Multi-Period Stochastic Model," September, p. 329.

Gonedes, Nicholas J., "A Test of the Equivalent-Risk Class Hypothesis," June, p. 159.

Hakansson, Nils H., "On the Dividend Capitalization Model Under Uncertainty," March, p. 65.

_____ "Risk Disposition and the Separation Property in Portfolio Selection," December, p. 401.

Jones, Charles P., and Robert H. Litzenberger, "Adjusting for Risk in the Capital Budget of a Growth-Oriented Company: Comment," September, p. 301.

Krainer, Robert E., "Liquidity Preference and Stock Market Speculation," March, p. 89.

Kraus, Alan, and Arie Melnik, "Short-Run Interest Rate Cycles in the U.S.: 1954-1967," September, p. 291.

Lerner, Eugene M. and Robert E. Machol, "Risk, Ruin and Investment Analysis," December, p. 473.

Linter, John, "The Aggregation of Investor's Diverse Judgments and Preferences in Purely Competitive Security Markets," December, p. 347.

Litzenberger, Robert H., and Charles P. Jones, "Adjusting for Risk in the Capital Budget of a Growth-Oriented Company: Comment," September, p. 301.

Machol, Robert E., and Eugene M. Lerner, "Risk, Ruin and Investment Analysis," December, p. 473.

Mauer, Laurence Jay, "Commercial Bank Maturity Demand for United States Government Securities and the Determinants of the Term Structure of Interest Rates," March, p. 37.

McKean, John R., "A Note on Administered Prices with Fluctuating Demand," March, p. 15.

Melnik, Arie, and Alan Kraus, "Short-Run Interest Rate Cycles in the U.S.: 1954-1967," September, p. 91.

Pogue, Thomas F., and Robert M. Soldofsky, "What's in a Bond Rating?" June, p. 201.

Robichek, Alexander A.,"Risk and the Value of Securities," December, p. 513.

Roll, Richard, "Bias in Fitting the Sharpe Model to Time Series Data," September, p. 271.

Saunders, Robert J., "On the Interpretation of Models Explaining Cross-Sectional Differences among Commercial Banks," March, p. 25.

Smith, Keith V., and Dennis A. Tito, "Risk-Return Measures of Ex Post Portfolio Performance," December, p. 449.

Soldofsky, Robert M., and Thomas F. Pogue, "What's in a Bond Rating?" June, p. 201.

Tito, Dennis A., and Keith V. Smith, "Risk-Return Measures of Ex Post Portfolio Performance," December, p. 449.

Trent, Robert H., and William E. Young, "Geometric Mean Approximations of Individual Security and Portfolio Performance," June, p. 179.

von Lanzenauer, Christoph Haelong, "A Model for Determining Optimal Profit Sharing Plans," March, p. 53.

Wippern, Donald F., and Richard S. Bower, "Risk-Return Measurement in Portfolio Selection and Performance Appraisal Models: Progress Report," December, p. 417.

Young, William E., and Robert H. Trent, "Geometric Mean Approximations of Individual Security and Portfolio Performance," June, p. 179.

Ziemba, William T., "A Myopic Capital Budgeting Model," September, p. 305.
